

Members of The Judiciary Committee,

I strongly urge you to **Oppose** H.B. **6355** An Act Concerning Risk Protection Orders or Warrants.

The risk warrant is available now to anyone at any time with police arriving immediately. This bill makes NO sense. If someone feels that someone is at risk they shouldn't have to wait until the courthouse is open to file for an "extreme risk" warrant. This bill may also have the unintended consequence of having gun owners not seek needed mental health due to fear of losing their rights. We already have plenty of gun laws that impact law abiding citizens.

Please, do **NOT** pass H.B 6355.

I strongly urge you to **Support** H.B **6491** An Act Concerning Nonlethal Electronic Defense Weapons.

The right of self-defense applies to all devices and weapons in common use. There is no reason why "stun guns" should be illegal. The landmark decision of The Supreme Court of the United States in *Caetano vs Massachusetts* affirms that "the Second Amendment extends, prima facie, to all instruments that constitute bearable arms, even those that were not in existence at the time of the founding". I would think that you would support a non-lethal means of defense.

Please, **support** H.B 6491.

Thank you,

Bruce Lindsley  
Bristol.
